

SEDATIV

At a glance

SEDATIV was formed in April 2004. That year was perhaps one of the heaviest year. The year of hard work to build. It was a sustained effort on our part to succeed in giving life to the concept we launched.

Until September 2005, SEDATIV approached what founder members have defined as Alternative Etno Rock. "Zaraza", "Doina", "MDS", Imn pentru învingători", Bate vînt de primăvară", "Striptease rural", are the songs that marked the beginning of

the SEDATIV existence.

The founding members whom SEDATIV thanks for the work of band building personality was: Ionuț Radu Burlan (voice), Mihai Crețoiu (keyboards), Alin Radu (keyboards).

In March 2006, the sound changed radically. It was the switch to ELECTRO FUSION.

Many voices have expressed frustration by misunderstanding what's going on, many have grimaced their faces for various reasons ... but SEDATIV Crew did not give any shit about it ...

2006 was the year when studio hours were more than live stage hours. Change of style, again, required a titanic work but made with great pleasure. The following guys put the shoulder with enthusiasm: LETHAL X, voice, Rhadoo the bass - bass, Christ - guitar, Seby Stone - drums, Xader - keyboards.

And everything was great until sometime in 2007, the band's vocalist suffered a foot accident and the band had to honor the last stage act that they hired for with the frontman in the chair, in the middle of the stage, with the foot in the plaster.

The energy present in any live performance SEDATIV was well-known. This event was a jolly event. The convalescence lasted not less than a year, during which the other members of the SEDATIVE band either followed their dreams with other bands or gave up.

And time has passed. A long time. Until WEISSMAN, an old friend with LETHAL X, makes a sensation proposal. Rebuilding SEDATIV! It happened in 2015 and it was not

SEDATIV

easy. It's been a year of trying out formulas, searches and struggle until 2016, SEDATIV did what seemed unlikely. The return! In an exceptional formula we can say, thanks to the team members with great experience in the avant-garde sound from romanian music industry.

LETHAL X, remained the same. The last component of the first SEDATIV lineup.

SEVER aka WEISSMAN, a well-known sound engineer in both the live and studio environments, has come up with a great passion: the instrument called bass, which he wanted to make as an ingredient in the SEDATIV sound recipe. The SEDATIV resurrection is due his vision.

WRAY - For many (maybe) an unknown. In fact, he is one of the few modern masters of the sound, who were part of the "Martin"* gang before Suie Paparude** was formed. The acquaintances know about "Martin" and "Suie Paparude". He's specialized on synths.

XJ MAGA took care of drumming. And he did it methodically. He started from his youth and matured with "Bere Gratis"*** at the time when "Girls, girls and ultraviolets ..." broke down Atomic in terms of number of broadcasts and even now points with SEDATIV another chapter in percussion.

It was left for the end but almost the most important. A friend without whom SEDATIV would not have existed. Founder, investor and manager, Florin Nedelcu, was the pillar of the band's resistance. The untidy has taken care of all organizational issues and has been actively involved in the band's activity. SEDATIV was born and raised alongside Florin. Today, he is one of the most famous impresarios in Romania.

Notes

* a very famous venue in the middle of the 90's in Bucharest, Romania

** a very well known electronic band in Romania

*** a well know band in Romania in the middle of 90's. "Girls, girls and ultraviolets ..." was a passage from a chorus of a track of them.

**** ATOMIC TV – Music Video Station

SEDATIV

In September 2019, Sedativ is invited to participate for a revamp party of the Motorrock festival, organized in a small setting by Silver Pistons motorcycle club in Prahova.

At the beginning of October, 2020, Sedativ released a double album "Chaotic" / "Narcotic" thus marking the official debut on the international music scene. The audio material was mixed and mastered together with very experienced sound engineers such as Neil McLellan (The Prodigy), Miles Showel (Underworld, Disclosure, Faithless), Chris Bolster (Foo Fighters, Maroon 5) and Jon Burton (The Prodigy).

Although in a bad period of time, in the midst of an international pandemic, Sedativ marks a premiere and enters for the first time on the global market of online music distribution. The album is distributed globally, on all major streaming channels. At the same time with the album release, it's released also the music video for the song "Mad". In short, it is the story of the once coherent man, subjugated by his own dark thoughts that constantly follow him. Full of remorse for the wrong actions he took during a tumultuous and taboo life, he reaches a state of compulsive madness sprinkled with rare moments of lucidity, subjugated by temptation.

In December 2020, the first EP called "Mad" is released which contains the same song for which the previous video was released along with remixes in different styles. The Trauma RMX and Dubstep RMX were made by the talented Mr. Ted E. and Jon Burton, signs the Industrial RMX version.

The next music video release takes place in January 2021, for the track "Cloud 9" from the "Narcotic" section of the double album released in 2020. If "Mad" followed a psychological side of the man who fell down into the temptation trap, "Cloud 9" highlights the stages of obedience and the emotional journey begun in a hotel room and continued in various stages, to the dark dungeon. At first sight frightening, but tempted in terms of the cocktail of pleasant emotions that envelop the characters on one side and the other of the domination's balance.

SEDATIV

Currently, in a not at all pleasant period that marked all aspects of life as we all knew it on Earth, without the possibility of exposing the artistic act on stage, the band members are still working in the studio, underground (literally) on the following tracks for a future album.

SEDATIV
